

## Stakeholder Consultation Announcement for PT Surya Utama Nuansa (SUN)

project in Jambi provinse regarding its certification against the standard for Sustainable and Resilient Infrastructure (SuRe®)

Monday, 21st September 2019

PT Surya Utama Nuansa (SUN) is announcing a 30 days stakeholder consultation process in compliance with the standard for Sustainable and Resilient Infrastructure (SuRe®) certification for its construction of a solar farm in Jambi Province, Sumatra, Indonesia. The project will supply clean and reliable energy to 19 villages in Tanjung Jabung Regency, Jambi Province. In total, the project will provide electricity to over 8,000 homes. The project map can be seen below:

Based on the Feasibility Study conducted, the total project capacity would be 16.3 MWp and 41.6 MWh of Energy Storage System (ESS).

The owner of SuRe® is Global Infrastructure Basel Foundation (GIB), which is a Swiss foundation based in Basel, Switzerland, working to promote sustainable and resilient infrastructure through sustainable infrastructure design and financing on a global scale. The SuRe® standard was developed through a rigorous stakeholder and research process, integrating requirements for infrastructure projects to contribute at project level to achieving the objectives of international frameworks. It is a globally applicable standard for infrastructure projects and details are available at <http://www.gib-foundation.org>.

A local stakeholder consultation is also being announced in Indonesian language on PT SUN's website (<https://lifewithsun.com/portfolio/elektrifikasi-desa-jambi/>). The stakeholder consultation process will end on 29th of November 2019 and will be presented at the launching event of the SuRe® certification in Indonesia on the 10th of December 2019 together with the standard owner, the Conformity Assessment body and other stakeholders in the Indonesian context.
