

SIA "TUV Nord Baltik" offers all interested parties' certification in non-destructive testing (NDT) methods in accordance with ISO 9712. The default cost of any NDT method includes:

- industrial sector – **s** (pre-operation and in-service control),
- product sector – **w** (welded joints).

Certification for more sectors requires additional preparation and evaluation of specimens corresponding to the declared scope of certification.

Individual cost calculator*						Price: EUR without VAT
NDT Method:					Level	
Industrial sector	m	s	r	a		
Product sector	w	c	t	f	wp	

The cost of **re-certification** and **renewal**** according to NDT methods is set at **60%** and **40%** of the cost of initial certification. The conditions for level **3 certification**, **PED** certification (Directive 2014/68/EU), **extension** of the scope of certification and additional work are determined individually.

SIA "TUV Nord Baltik" prepares candidates for the initial certification in groups of six (6) people or more, the preparation schedule is available in the section «Training of NDT personnel». If the minimum number of candidates cannot be provided, the group is transferred until the minimum number of candidates is completed.

SIA "TUV Nord Baltik" may carry out preparation for the initial certification at the applicant's premises if the requirements for NDT training are met, in which case the applicant covers additional costs associated with the business trip of personnel.

SIA "TUV Nord Baltik" provides discounts for initial certification depending on the number of candidates:

- **5-6** candidates – discount **3%**
- **7-8** candidates – discount **5%**
- **9+** candidates – discount **7%**

SIA "TUV Nord Baltik" provides the option of issuing certificates in three languages (LV, RU, ENG), the applicant chooses the language in the application for certification. In case of choosing more than one language, the cost of the service will increase by 25 euros per language.

The cost of issuing a certificate in other languages is calculated individually.

NOTES:

*SIA "TUV Nord Baltik" reserves the right to change the cost of services.

**In accordance with ISO 9712:2021, the renewal takes place through practical exams.
