<b>Root Cause Analysis (by company):</b>			
<p>We admit that we have not complied with the latest minimum wage order 2022 which is 1500.00 per month per worker. But we must also state here that it was never our intention to short charge our employees.</p> <p>The mistake for this is genuine and we have been misled by wrong information thinking that a small company like ours is exempted for the time being and will only have to start compliance at a later dates.</p> <p>It is also a fact that most of our workers are locals and staying in close by village. Most of them have their own small holdings of 15 acres or more of rubber or oil palm plots which they have to attend to.</p> <p>From the start they have requested the company to be flexible with their working hours giving the reason that they would also have to attend to their own plots of land. When working on a contract basis this will not be a problem since they would be paid on the actual amount of work done and they can decide for themselves the working hours.</p> <p>However, this will become a problem occasionally when they are given daily rated work. On consideration the Company has agreed to be flexible with them in their working hours and as a result most of time an individual has only perform about 6 hours job instead of the 8 hours as required. In this case as agreed the company would still pay them a full day's wages.</p> <p>In this respect the company has in really never short change each and every worker.</p>			
<b>Correction (by company):</b>			
<p>The company will commence immediately to comply with the minimum wages requirement and will offer the right rate for daily wages @ RM57.69 starting from September 2022 onward.</p> <p>Accordingly the September check roll will be forwarded to you once it is done after 7<sup>th</sup> October 2022.</p>
