

An environmental, health, safety and security management system for the chemical industry

Responsible Care® was launched in 1988 as the American Chemistry Council's (ACC) comprehensive Environmental, Health, Safety and Security (EHS&S) performance improvement initiative.

The need for a structured process to implement and manage Responsible Care® management principles resulted in the RC 14001® technical standard.

Many businesses recognize the importance of protecting the environment and the health and safety of employees. It has become increasingly necessary to assure customers and the public that your organization is a responsible corporate citizen

RC14001® -- Based on a plan-do-check-act philosophy, a responsible care management system allows a company to continually improve internal processes, while providing the flexibility to meet individual needs and facility requirements.

Target group

It is the ideal standard for chemical manufacturing companies who want a certified system based on an international standard that is accepted by all types of organizations worldwide.

Benefits

- Continual improvement
- Potentially reduce accidents and injuries which could result in liability
- Gain broader market recognition, increasing your potential customer base
- Manage compliance with environmental, health, and safety laws and regulations
- Attain the highest ethical standards and prove responsible corporate citizenship
- Incorporates all of the requirements of ISO 14001:2004

Steps for the audits

The process for audits will have the following steps:

- Enquiry
- Identify the client requirements
- Identify the scope
- Proposal submission
- Client approval
- Audit planning
- Audit performance (stage 1 & 2)
- Audit reporting
- Certification
- Surveillance

Our know-how for your success

TÜV NORD is a well-established and reliable partner for inspection and certification services. Our experts have extensive knowledge based on experience and are generally permanently employed by TÜV NORD. This guarantees independence and neutrality, and also means we can offer continuity in supporting our clients. The benefit to you is clear: our auditors accompany and support the development of your company and provide you with objective feedback.

Are you interested?

Please send us your response by fax or e-mail.

We are looking forward to hearing from you.
