GAIN

Confidence in Safety and Compliance

TÜV UK Ltd will help you reduce business risks through:

- Improved compliance with current Health & Safety Legislation
- Avoidance of Improvement Notices and fines by the Enforcing Authority
- Reduction of exposure to compensation claims

A sound safety culture is a common feature in successful organisations. As well as being a key element in the continual improvement process this can pay dividends in terms of:

- Improved accident and claims records
- Enhanced employee morale
- Lower absenteeism
- Positive publicity through safety success

TÜV UK Ltd

Health & Safety Services
& Engineering

Making our world safe

By choosing our Health & Safety Audit Scheme, your business will be making a positive step towards achieving compliance with relevant Health & Safety legislation.

Our scheme is based on a thorough Health & Safety review of each location within your organisation. This initial audit will give a summary of findings and a prioritised action plan to assist you with legal compliance and provide you with a foundation for your future Health and Safety strategy and continual improvement of your management system.

Typical H&S audits cover the following key areas as applicable to your business:

- Safety Policy
- H&S Management System
- Work Place & Activity Risk Assessments
- Work Procedures
- Control of Contractors & Visitors
- Fire Plan
- Emergency Plan
- Statutory Examinations
- Control of Substances Hazardous to Health
- Provision and Use of Work Equipment
- Lifting Operations and Lifting Equipment
- Workplace Safety & Welfare
- Noise Control
- Food Hygiene
- Signage
- Safety Committee
- Training
- Staff Induction
- Personal Protective Equipment
- Housekeeping
- Accidents and Incidents
- First Aid Facilities
- Electrical
- Storage
- Waste Control
- Security

TÜV UK Ltd offer the following Engineering Health and Safety Services

Health & Safety Policy and Management System:

Review of existing policy or compilation of a new policy if necessary or complete bespoke management system up to OHSAS18001 if required. Coaching existing management systems to achieve OHSAS 18001 standard.

Risk Assessments:

Carry out comprehensive workplace, work activity or workstation risk assessments as required under the Management of Health and Safety at Work Regulations 1999 or DSE Regulations, and assist in the compilation of detailed method statements and work procedures.

PUWER:

The Provision and Use of Work Equipment Regulations 1998: Carry out comprehensive PUWER Assessments of all types of machinery and produce comprehensive reports.

Plant and Machinery Inspections:

Following on from PUWER Assessments, carry out the identified inspection schedules on all types of plant and machinery to comply with PUWER, LOLER, PSSR and COSHH.

Audits:

Carry out comprehensive Health and Safety, Environmental and Quality Audits on all types of business. Carry out compliance audits according to specific statutory requirements.

Health and Safety Consultants:

Provision of competent professionals to act as health and safety consultants on a permanent or semi permanent basis, to regularly attend clients' premises at agreed intervals and provide the necessary input to continually improve safety culture and health and safety management systems.

Health and Safety Surveillance:

Provide competent professionals to carry out health and safety surveillance visits, producing legislation compliance and hazard & risk observation reports including action plans, highlighting areas where improvement is required. This service can be tailored to suit any company budget including smaller organisations.

Noise, Dust, Fume and Legionella Assessments:

Through our network of vendor rated subcontractors we are able to offer a comprehensive specialist service. All subcontractor activities are project managed by our in house engineering specialists.

Construction Design Management Regulations:

We have suitably qualified personnel to assist and give guidance on the control of CDM projects. Assisting in the compilation of Health and Safety Plans, carry out reviews of Lifting Plans and other relevant documentation, and if necessary carry out the function of Planning Coordinator.

Training:

We are experts in providing training to both the public and private sector. We specialise in delivering NEBOSH accredited training and our most popular courses are the NEBOSH General and Construction qualifications and the methods of delivery can be tailored to meet the needs of your organisation. We also provide the following 'bespoke' courses tailored to your specific industry:

- General Health and Safety, Health and Safety at Work Act 1974.
- Management of Health and Safety at Work Regulations 1999.
- Workplace Health, Safety & Welfare Regulations 1992.
- Electricity at Work Regulations 1989.
- Pressure Systems Safety Regulations 2000.
- Confined Space Regulations 1997.
- Manual Handling Regulations 1992.
- The Machinery Directive.
- Construction and Design Management Regulations 2007.
- Control of Substances Hazardous to Health Regulations.
- Provision and Use of Work Equipment Regulations 1998.
- Lifting Operations and Lifting Equipment Regulations 1998.
- Use of Lifting Tackle, Safe Use of Cranes.
- National General Certificate in Occupational Health and Safety.
- National General Certificate in Construction Health and Safety.
- Other courses are available upon request.

Machine Training:

Specialist machine operating training can be arranged through our network of authorised sub contract trainers.

Accident Investigation:

We have a team of professional engineers who are able to carry out thorough accident investigations, produce in depth reports relying on visual inspections and utilising UKAS accredited laboratory facilities to provide in depth reports to satisfy clients' and Health and Safety Executive requirements. We are also able to act as expert witness in cases of engineering investigations.

General:

We are a team of H&S professionals and engineers able to carry out all Health and Safety functions however unique to the individual client. We will tailor our service to meet your requirements and suit the resources you have available.
