

Making our world safe

TÜV UK Ltd – Services and Training

The technical staff and experts of TÜV are renowned for ensuring that industrial systems and products are designed, manufactured, installed and commissioned in accordance with the appropriate standards and regulatory bodies.

Formed in 1979, TÜV UK Ltd carved a niche in the British Industry by dealing with the growing demands for increased quality, safety, reliability and efficiency. TÜV UK is recognised and respected worldwide for its numerous inspection and certification services.

TÜV UK Ltd is member of the following organisations:

Safety assessment Federation (SAFed) and active in almost all its committees

European Confederation of Control, Inspection and Prevention Organisations (CEOC)

British Engineering Manufacturers Association (BEMA)

Association of British Certification Bodies (ABCB)

We were accredited for Certification of Quality Management Systems in 1995. The department implemented a targeted and success-orientated mannered system to face the requirements of UKAS to provide public confidence in the market place.

Our qualified experts who operate throughout the entire country are supported by the main office in South East London. Additionally the company can seek support and rely on the technical laboratories and research facilities of its Head Office TÜV Nord in Germany. The head office in Germany offers its services in more than 70 countries and employs over 14,000 people. TÜV UK Ltd operates within a worldwide network and is involved with several international projects in Republic of Ireland, Italy, China, India and the Middle East.

Management System Certification

TÜV UK Ltd has been accredited by the Regulatory Body UKAS since 1995. We achieved accreditation to the latest standard ISO 17021. Our extensive certification covers our clientele locally and worldwide. Our vast range of expertise covers mechanical, electrical, electronic, plastics, construction, recovery and wholesale industries. Our assessors are experienced, competent, knowledgeable and qualified under UKAS approval. TÜV UK is offering in co-operation with Nigel Bauer & Associates IRCA registered lead auditor training courses for 9001, 14001 and OHSAS 18001.

Product Inspection

Working with our colleagues throughout our global network in TÜV NORD CERT GmbH we can provide the following services:

- The GS mark shows that a product has been tested by a national test house and includes an initial inspection of the manufacturing facilities and regular production checks. The mark can give you a significant competitive advantage.
- As a notified body (identification No. 0044), TÜV NORD CERT offers all the necessary tests and certifications for explosion-protected equipment.

Environmental Verification Services

Verification by TÜV UK Ltd is based on internationally accepted standards such as ISO 14064. By making use of TÜV UK Ltd third party verification services you gain assurance of climate or sustainability data. As a qualified verifier, TÜV UK Ltd brings additional experience and viewpoints into the reporting process. Certification by TÜV UK Ltd enables companies and other organisations that are aware of their environmental responsibilities to document their commitment to climate protection.

Nuclear Inspection

TÜV UK as part of TÜV NORD Nuclear is offering Third Party Inspection in the International Nuclear field. TÜV NORD has operated in the Nuclear Industry for more than 50 years. Due to its worldwide Nuclear projects TÜV NORD has experience with international regulations relevant for planning, construction and commissioning of Nuclear Power Plants. TÜV NORD experts are currently involved in nuclear projects in Germany, Sweden, Finland, Brazil, Argentina and South Africa working according to a life cycle of nuclear projects.

Our know-how for your success

TÜV UK Ltd is a well-established and reliable partner for inspection and certification services. Our experts and auditors have extensive knowledge based on experience. This guarantees independence and neutrality, and also means we can offer continuity in supporting our clients. The benefit to you is clear: our auditors accompany and support the development of your company and provide you with objective feedback.
