

# In-company Transition Awareness Course

## TÜV UK Ltd

ISO 9001:2015 & ISO 14001:2015  
New structure, changed emphasis

**£995** + VAT\* for up to 12 delegates

**1 day course**

Following the publication of the 2015 revisions of ISO 9001 and ISO 14001 Standards, TÜV UK is now offering a 1-day in-company transition awareness course.

The course looks at the significance of the “High Level Structure” in new ISO standards.

New requirements and changes of emphasis including:

- Establishing the “Context” and “Interested Parties” of your organisation and determining its scope.
- Leadership and commitment
- Risk-based thinking and risk management – threats *and* opportunities
- Processes, policy, roles and responsibilities
- Life cycle perspective
- Organisational knowledge
- Documented Information

### In addition the course will look at:

What evidence might an auditor look for and how might this be obtained considering the reduced requirement for documentation?

Workshop exercises will be run throughout the day covering requirements and changes based on the host’s organisation or fictional scenarios as appropriate.

\*In-company course cost of £995 + VAT plus travel & expenses will be charged at cost.

Maximum of 12 delegates per in-company course

### Who should attend?

If you are a Quality or Environmental Manager, have responsibility for your organisations QMS and/or EMS system, are an internal auditor, a consultant, or simply part of the management team, this course is a must for you.
