

OUR KNOWLEDGE FOR YOUR GOALS

Presenting TÜV NORD GROUP

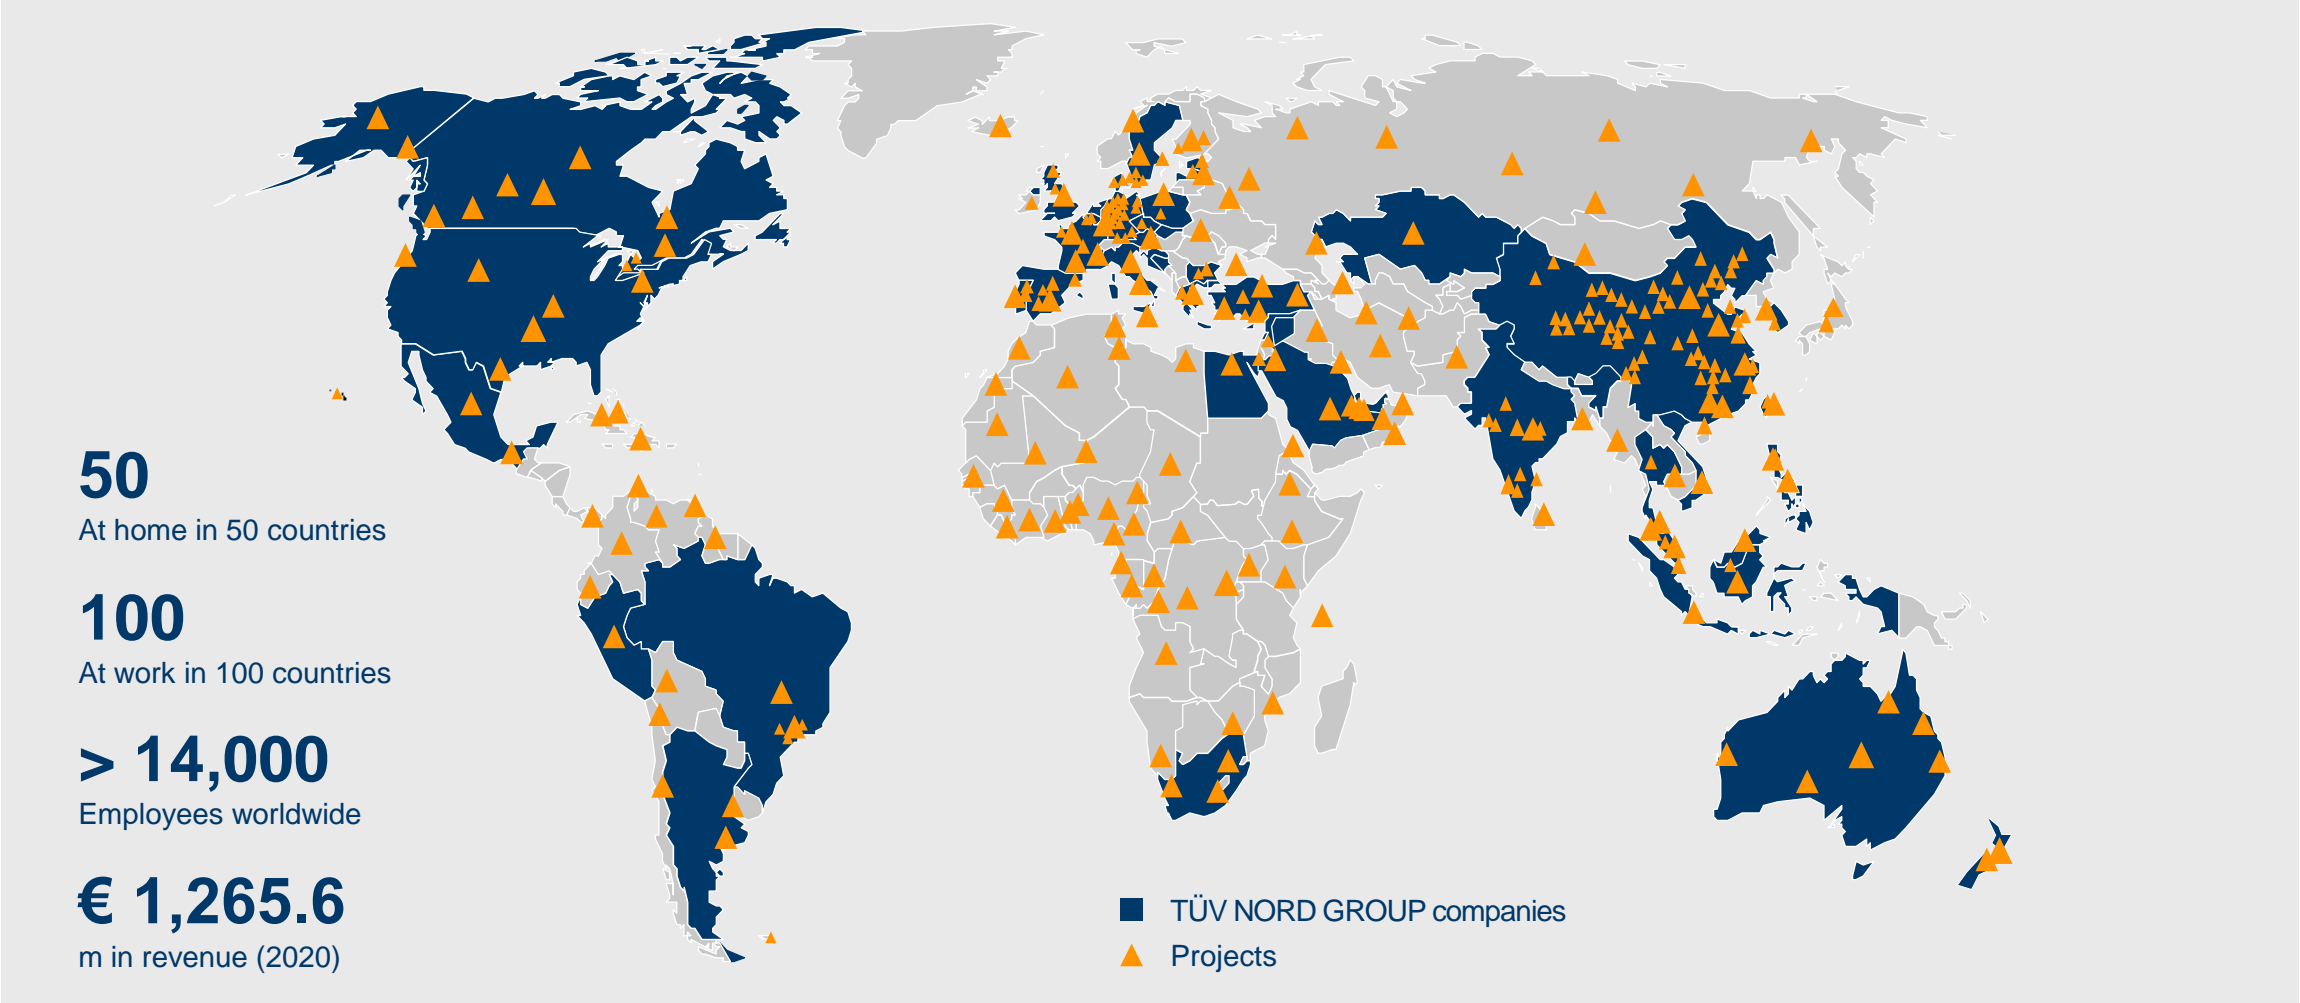

TÜV NORD GROUP

Expertise for your Success

KEEPING PEOPLE AND TECHNOLOGY SAFE. FOR MORE THAN 150 YEARS.
EVERY DAY, WORLDWIDE.

EXPERTISE WORLDWIDE, SERVICES ON SITE. THAT'S WHAT WE DO.

FACTS AND FIGURES*.

TÜV NORD GROUP AT A GLANCE.

(*All figures as of 2020)

KNOWLEDGE AND DIALOGUE, PROGRESS AND SUSTAINABILITY. TAKEN TOGETHER, THIS IS OUR EXPERTISE FOR YOUR SUCCESS.

Underground

On the ground

Above the ground

With our knowledge, we stand for safety, independence and quality – everywhere and at all times. We look to the future and dedicate ourselves to making our clients even more successful in the connected world.

We protect lives, goods and natural resources. We achieve this by offering services in testing, inspection, certification, engineering and training.

EXCELLENT PERFORMANCE THROUGH BROAD EXPERTISE. WE ARE LEARNING CONTINUOUSLY.

People are the focus of everything we do. Promoting our specialists and working in mixed teams are two goals firmly anchored in our Guiding Principles. We continuously improve knowledge transfer across all areas in the effort to develop the best solutions.

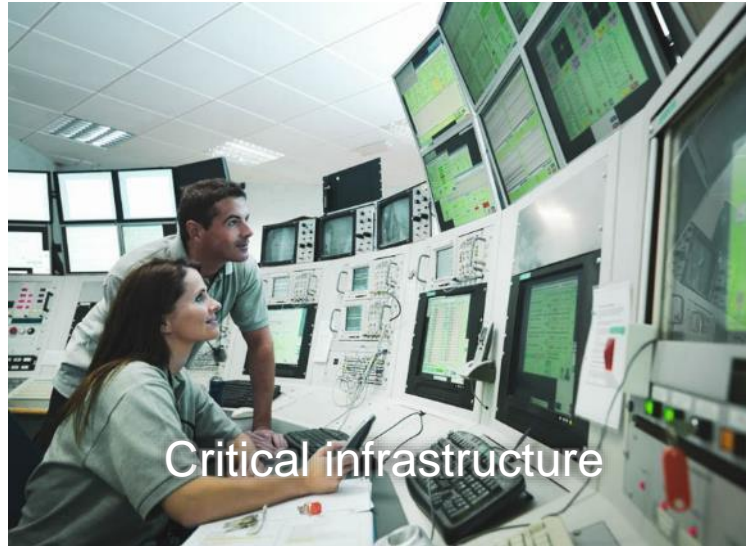

A photograph of two women in a server room. The woman on the left is of Asian descent, wearing a light blue button-down shirt, and is looking down at a device held by the woman on the right. The woman on the right is of European descent, wearing glasses and a green top, and is also looking down at the device. In the background, there are server racks with many cables. The text "DIGITALISATION – THE DRIVING FORCE OF OUR WORLD. WE PROVIDE THE SAFEGUARDS." is overlaid in white capital letters.

DIGITALISATION – THE DRIVING FORCE OF OUR
WORLD. WE PROVIDE THE SAFEGUARDS.

NETWORKED COMPANIES FACE GROWING SECURITY REQUIREMENTS. WE HELP YOU MEET THEM.

Trusted App

Critical infrastructure

Coronavirus app

Whether in a data center, in an office or on the go – we stand for cybersecurity and data sovereignty. We safeguard information and hardware against hacker attacks. We are already focussing on post-quantum cryptography for future-proof data encryption.

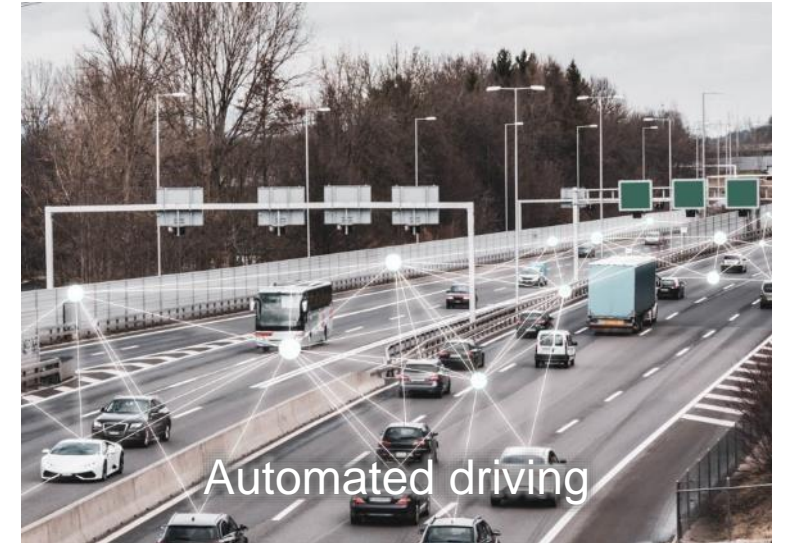

Data center

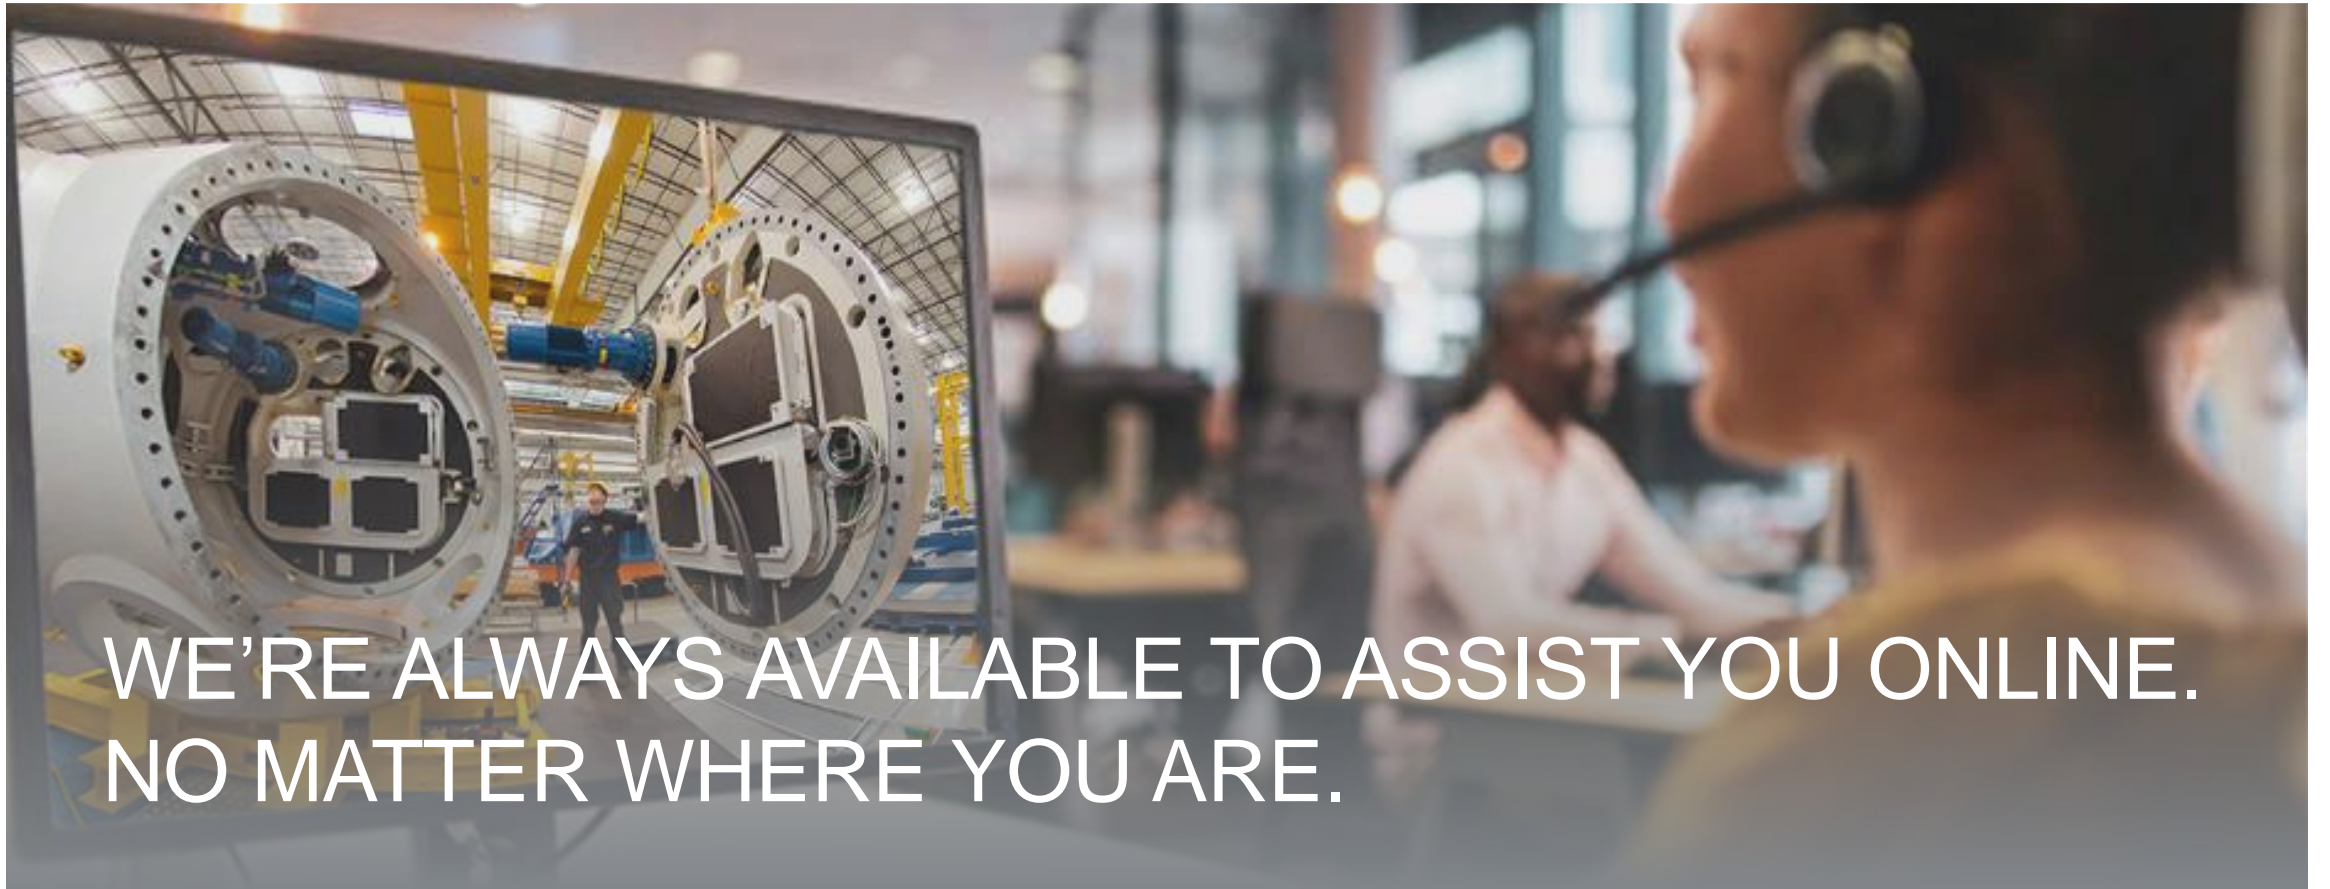

A photograph of a car's interior from the driver's perspective. The driver's hands are on the steering wheel. The dashboard features a large digital display showing a speedometer, tachometer, and navigation map. The navigation map shows a route through a city with labels like 'Hollthausenstraße' and 'Hollthausen'. The text 'HOW WILL WE GET AROUND TOMORROW? THAT'S WHAT WE'RE TESTING TODAY.' is overlaid in white capital letters on the lower half of the image.

HOW WILL WE GET AROUND TOMORROW?
THAT'S WHAT WE'RE TESTING TODAY.

WHAT WILL KEEP US MOVING IN FUTURE? WE'RE ON IT.

Battery, fuel cell, internal-combustion engine – will a blend of drives dominate tomorrow's markets? Our experts work with companies and the authorities to come up with the most climate-friendly mobility possible. They are getting involved to make sure the networked and automated traffic of tomorrow will be safe.

WE'RE ALWAYS AVAILABLE TO ASSIST YOU ONLINE.
NO MATTER WHERE YOU ARE.

WHY COMPLICATE THINGS IF THERE'S AN EASIER WAY? WITH REMOTE SERVICES, WE CAN FIND EACH OTHER EVERYWHERE.

In our digitally networked world, you can learn, inspect, test, and (re)certify – from anywhere, any time! This saves time, expenses and CO₂. This reduces downtime and allows you to concentrate on what your customers need – rest assured.

A high-angle, wide shot of an industrial construction site. Two workers in orange safety suits and white hard hats stand on a metal walkway. In the background, a large, complex structure of orange and grey machinery is visible, possibly a conveyor system or a large-scale construction component. The scene is dimly lit, with a strong light source creating a bright glare on the machinery. The overall atmosphere is industrial and technical.

ENGINEERING IS OUR CORE COMPETENCY.
SO IS SUSTAINABILITY.

TECHNOLOGY, PROGRESS, TRANSFORMATION: CIVIL ENGINEERING & INFRASTRUCTURE MAKE IT POSSIBLE.

Solar & wind energy

Energy audit

Whether major project or research contract – our experts will assist you with bundled expertise and extensive experience from all areas of technology – all over the world. Everything we do is guided by the considerations of environmental, social and economic sustainability.

Plant technology

Processes design

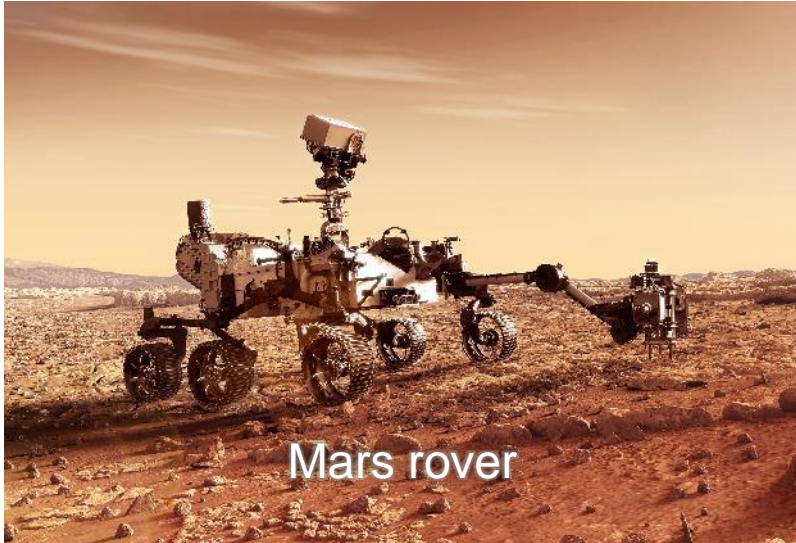

Civil engineering &
infrastructure technology

THE AEROSPACE SECTOR KNOWS NO
BOUNDARIES.
BUT THE POSSIBILITIES ARE LIMITLESS.

SPACE RESEARCH, SATELLITES, 5G COMMUNICATION – WE WANT TO REACH FOR THE STARS!

Mars rover

Nanosatellites

Many years' experience inspecting satellite components has given us a unique set of skills. We are involved in missions to Mars and are a leading provider of micro- and optoelectronic tests in the aerospace sector.

Laboratory inspections

IoT / 5G / Networking

HEALTH AND SUSTAINABILITY.
THESE ARE GOODS WE LOOK AFTER.

TO US, PEOPLE AND THE ENVIRONMENT BELONG TOGETHER. AND YOUR NEEDS ARE AT THE HEART OF THIS.

How we humans feel, the things we eat, whether we are healthy, and how and where we learn, work and develop – these are the key questions we pursue in our laboratories, in the field or at your premises. Because our clients and employees are our top priority.

TAKING SOCIAL RESPONSIBILITY IS NOTHING NEW. IT'S BEEN OUR APPROACH SINCE 1869.

For more than 150 years, we have dedicated ourselves to protecting people, technology and the environment. Whether in the workplace or everyday life, every day our entrepreneurial mission is guided by considerations of responsibility and sustainability. 'Sustainability' to us means responsibility for nature and society.
