

Petroleum, Chemicals and Gas Services

TÜV NORD GROUP
Excellence for your Business

Petroleum, Chemicals & Gas

For over 140 years TÜV NORD GROUP has been developing forward looking solutions to meet the challenges of skills and a practised corporate culture make us a strong and reliable partner. Our domain experts develop truly excellent solutions making your business more secure and enhance the quality of your technology, processes, products and business decisions

Petroleum, Chemicals & Gas services of TUV India (TÜV NORD GROUP) provides a wide range of technical, analytical and operational services to the petroleum, petrochemicals, chemicals, gases and related industries.

These services are designed to reduce risk, to add value and to comply with contracts and regulations.

Our core values of complete independence, transparency and integrity guide us in our mission to deliver excellent services on a constant high quality level to customers around the world.

Areas of Expertise in Petroleum, Chemicals & Gas

- Quantity and Quality services in Petroleum, Chemicals & Gas
- Laboratory testing
- Sampling
- Calibration
- Gas technical services for the conditioning and purging of gas carriers
- Packing and forwarding of samples
- Tank and container inspection services together with contract laboratory and terminal manning and management

Quality & Quantity Control Services

Domestic and International trade involves several stakeholders including producers, importers, exporters, traders, insurance companies, banks, government, semi-government bodies and international organizations.

In such transaction, cargoes are bought and sold, thus resulting in transfer of ownership. These transactions require an independent third party assessment and conformity of cargoes in terms of Quality & Quantity as well need quick reporting from the field on cargo integrity and any other specific aspect of the product.

Our competent pool of technical experts offer on-site support at every location where crude oil, petroleum products, petrochemicals, chemicals and gases are physically transported. We offer laboratory facilities and technical resources support specific product movements.

Laboratories offer a complete range of testing services for:

- Crude Oil
- Petroleum Products
- Petrochemicals, Chemicals and Gases along with on-site testing facilities within the terminals

Tank Calibration Services

TUV India can undertake calibration of Vertical, Spheres and Horizontal tanks through Manual Strapping, Optical Reference Line Method (ORLM) and by Electro Optical Distance Ranging (Laser Technique)

Services offered to:

- Storage and Product Handling Terminals
- Refining Industry
- Chemical Industry
- Petrochemicals & Polymers Industry
- Shippers and Pipeline Operators
- Traders

Responsiveness

- Single point co-ordination
- 24x7 availability
- Senior managers in each office
- Technical excellence
- Support with standards

Our Vision

We meet the technical challenges of the future worldwide for the benefit of people and the environment. We develop forward-looking solutions and support their consistent implementation.

Our Values

Trust, dignity, conscientiousness and social cooperation: employees of the TÜV NORD GROUP adhere to these four fundamental values of business ethics in their dealings with one another, with their partners and clients. All of their actions and thinking is based on the underlying values of independence, responsibility and integrity.

With a tradition dating back over 100 years, we have a reputation for providing services to its customers' advantage based on its experience and competence.

Our services ensure quality, safety and reliability through competence.

Focus on the future

We involve ourselves with ground breaking technologies at an early stage. This empowers us to strengthen our customers to gain an advantage in competitive markets.

Excellence

All that we do is built upon the qualification of our employees, their knowledge and their expertise. This enables us to provide our clients with advice and services of highest quality.

Objectivity

As experts, we preserve our independence and neutrality in the interests of safety and quality.

About Us

With over 12,000 employees, TÜV NORD GROUP is one of the largest independent technical service providers, offering its advisory, service and inspection expertise in over 70 countries throughout the world. Areas of activity include Industrial Services, Certification, Testing, Product Certification, Mobility, Training, and IT. TÜV NORD GROUP occupies a unique position in the sector based on its work in the fields of natural resources and aerospace and is firmly committed to its guiding principle and watchword: **“Excellence for your business”**.

TUV India Pvt. Ltd. was established in 1989 as part of the German RWTÜV group's Indian operations, now part of the TÜV NORD GROUP, as one of the first Certification Bodies to start operations in India; since then, it has been closely associated with the quality revolution in India. With over 600 employees in more than 25 locations and laboratories across India, TUV India is never far from its customers.

Being one of the market leaders and having earned a very good industry reputation and recognition from stakeholders, TUV India offers diverse range of technical services to its large clientele which includes leading corporate houses, public sector organizations, and small and medium scale enterprises.
