Fees 2026 for the Ecogarantie® logo

1. Companies with an Ecogarantie® turnover of less than € 135 000

A minimum amount of €1.225 is charged annually. Only additional sites will be invoiced according to the table below*.
A reduced fee of €640 may be granted at the start of the certification depending on the complexity of the file and this until an annual turnover of €25.000.

2. Companies with an Ecogarantie® turnover equal to or exceeding € 135 000

The amount is based on the complexity of the case. The minimum fee is always €1.225. In order to calculate the total contribution, a number of parameters is taken into account:

Parameter	Contribution
Number of sites	First or only site: €843 * Per additional site depending on the type of activity: > Storage of prepackaged products: €301 > Other activity: €628
Number of Ecogarantie® end products	€56 per product
Mixed activity: Ecogarantie® and non-Ecogarantie® production	If applicable: fixed amount of €684
Volume sold (related to Ecogarantie® products)	> 0,109% of Ecogarantie® turnover up to € 2 100 000 > 0,033% of Ecogarantie® turnover between € 2 100 000 and € 21 000 000 > 0,011% of Ecogarantie® turnover above € 21 000 000

Example calculation:
A processor processing both Ecogarantie® and non- Ecogarantie® products, having 1 site, 5 Ecogarantie® end products and an Ecogarantie® turnover of € 150 000 will contribute:

€843 + (5x €56) + €684 + (0,109% x €150 000) = €1970,50

Definition of these parameters	
Site	Each location TÜV NORD Integra needs to visit to complete the annual inspection in its entirety.
Ecogarantie® end products	Two products are deemed different when they have a different recipe or a different manufacturing procedure. A product marketed with different weights or packaging, but with the same recipe, is considered as one end product.
Volume sold	The turnover per calendar year, realized with sales of Ecogarantie® products and/or the activity performed in any part of the production, processing or distribution of Ecogarantie® products.

Payment terms and general conditions

These fees apply to the 2026 calendar year. All mentioned prices are without VAT.

For companies applying after January 1st, the contributions described in this document cover the period up to the end of the calendar year. A reduction is offered to companies that join after September 1st.

The total contribution per year will be calculated in 2 phases. In the first trimester the minimum contribution will be invoiced. Afterwards, based on the data transmitted to TÜV NORD Integra using the form to determine the contribution, a settlement will be calculated for the previous year. For a new company, TÜV NORD Integra can ask for the turnover figures in the course of the 1st year.

These fees include:

- inspection visits on site
- travel expenses for the inspection within Belgium
- expenses of taking samples and analysis thereof
- issuance of certificates
- answering questions by mail and by telephone
- certification of new products
- keeping you up to date on changes related to the standard
- follow up of your file

*For inspections abroad additional transportation time, transportation costs and accommodation costs will be charged.

Supplementary inspections

The contribution can increase if supplementary inspections are necessary:

- When the inspection is complicated by for example: rooms that were not accessible, unavailable or poorly maintained accountancy
- When the result of an analysis confirms an abnormal state
- When a non-compliance leads to a warning or worse according to the official sanction policy

The cost of supplementary inspections will be charged at a rate of €181 per hour on-site, including travel expenses within Belgium (with a minimum of 0,5 hour). Supplementary inspections for which an on-site visit is not necessary will be charged at a rate of €83 per hour. If required, additional analysis costs are charged separately.
