

Webinar on Introduction to Good Foundry Practices and Inspection of Steel Casting

Date : 15th April 2020, Time: 11.00am to 1.00pm

Course Objectives

Bring in familiarity with Good Foundry Practice, help to understand the requirements of National and International standards, with reference to Visual & Dimensional Inspection, Destructive & Non-destructive Testing, Heat Treatment and issue of Manufacturer Inspection / Test Certificate

Course Features

This introductory course provides basic information of inspection of Steel Casting as required by National / International standards and Good Foundry Practices to produce casting in compliance to customer, Purchase Specification and applicable Code / Standards requirements

Who should attend ?

QA / QC Engineers, Managers, Production Engineers / Managers, Inspection engineers, Supervisors from Foundries.

Registration Fee : Rs. 1500 /- + 18% GST per participant

TÜV®

Course Contents

- ♣ Good Foundry Practices for Moulding, Melting, Pattern Design
- ♣ Test Pieces
- ♣ Chemical testing by basic wet method & Spectro analysis and respective standard specimens
- ♣ Heat Treatment requirements for carbon steel, alloy steel, SS and Duplex materials
- ♣ Destructive testing Tensile, Impact Testing Hardness and IGC basic requirements
- ♣ NDE RT, MT, PT, UT and VT Basic procedure requirements and Acceptance criteria
- ♣ Dimensional Inspection
- ♣ Pickling passivation basic information's
- ♣ Inspection Certificates 3.1 & 3.2 Basic requirements

Issue of Certificate

Certificate of successful completion shall be issued to all the delegates who attend entire duration of the course.

Duration : 120 Minutes(2 Hours)
