

Webinar for Overview on Microbiological Techniques

Date : 24th April 2020, Time: 4.00 pm to 6.00 pm

Course Objectives

- ♣ To develop an understanding on Good Laboratory Practices
- ♣ Infrastructure and Instruments required
- ♣ Different Isolation and Inoculation techniques,
- ♣ Selection of National and International methods
- ♣ Different types of Rapid techniques

Course Features

The course covers the Basic Microbial and Advanced Techniques in the Food Microbiology Laboratory for Isolation and Identification of Microorganisms

Who should attend ?

- ♣ Microbiologists in Quality Control labs
- ♣ Personnel intending to work in Food Microbiology Laboratories
- ♣ Microbiology students

Registration Fee : Rs. 1250 + 18% GST per participant

Course Contents

- ♣ Good Microbiological Practices
- ♣ Infrastructure requirements – Layout, Instruments required and calibrations
- ♣ Microbial techniques – Enumeration- Pour Plate, Spread Plate and MPN
- ♣ Expression of results
- ♣ Antibiotic sensitivity and Vitamin quantitation techniques
- ♣ Method selection as per National and International guidelines
- ♣ Rapid techniques - API, ELISA, Chromogenic Agars, Petr films and PCR based techniques

Issue of Certificate

Certificate of Attendance shall be issued to all the delegates who attend entire duration of the course.

Duration : 2 hours
