

Allergen Testing - Need Of the Hour

TUV India Food Testing Laboratory:

It is now mandatory for all food industries to not only be Allergen Aware but also communicate the same to their consumers. Allergen awareness is of priority and should be strictly implemented by all to provide safe and healthy food to consumers globally.

In most production lines, more than one product is produced which may result in unintended contaminations with allergens. To protect consumers and to assure an adequate labelling, an HACCP concept including reliable on-site allergen analyses must be implemented in all food production industries.

At TUV India Food Testing Laboratory, we use the latest internationally approved by AOAC (ELISA, lateral flow test) kits and cover a wide range of allergens. The method used is of ELISA. TUV India provides our clients with fast results of prime quality.

The below allergens are covered by TUV India :

Sr. No.	Allergen	LOQ
1	Gliadin Gluten	2.5 ppm 5 ppm
2	Soya protein	2.5 ppm
3	Cashew	2 ppm
4	Egg Protein	0.5 ppm
5	Total Milk	2.5 ppm
