

Bunker Fuel Analysis

Regular fuel testing is vital as it ensures that you know that the fuel oil you're bunkering and use is fit for purpose. There are host of problems that can occur with your fuel, both from the traditional heavy fuel oil to the more modern low sulphur fuels. And if left unchecked can cause significant problems with your engine and fuel system. For just a couple of hundred dollars you can significantly reduce the operational risks of using these fuels.

As the market in fuel oil becomes ever more diverse and sophisticated, the need for consistent, detailed in- depth analysis will continue to grow the quality of fuel used in the ships, barges, containers & vessels. Testing the quality of fuel is necessary to monitor the quality of fuel as per regulatory specifications.

All oil companies, suppliers or users, are aware how variable quality can be and the extreme effects low quality of fuel can create for people involved in the shipping industry. Fuel being one of the major cost center for marine industry, using fuel of the highest quality & specified grade is necessary to maintain the proper functioning of the fleet and ship. Proper quality of fuel ensures conformance of the fleet to strict emission and environmental regulations. Thus provides fuel quality monitoring programs for its customers to help them maintain the quality of fuels used in their ships and vessels.

Benefit of Bunker Fuel Testing:

- Identify Poor Injector performance
- Identify Smoking Problems

- Monitor Emissions
- Identify Fuel pump issues and failures
- Monitor cause of High Fuel Consumption

Our Analysis Includes below

Test Parameters:

- Acidity mg KOH/gm - ASTM D 974, 664
- Ash Content % Wt. - ASTM D 482, IP 4
- Asphaltine Content % Wt. - IP 143, D 3279 D-6560 API
- Gravity - ASTM D 287
- B.S. & Water % Vol - ASTM D 1796
- C.C. A.I - Calculated
- Cloud point °C- ASTM D 2500, IP 219
- Compatibility/Stability Test Rating - ASTM D4740
- Carbon Residue % Wt. - ASTM D189, IP 13
- Carbon Residue Micro Method - ASTM D 4530 / ISO 10370
- Copper Corrosion Test Rating - ASTM D 130 / ISO 2160
- Cold Filter plugging point - IP 309
- Chloride content - IP 510/ ASTM D 5808

- Density kg/L - ASTM D1298 / ISO 3637
- Density kg/L (All) - ASTM D 4052/ ISO 12185
- Gross Calorific Value - ASTM D 4868
- Kinematic Viscosity - ASTM D 445/ ISO 3104
- Trace Metals ppm - IP 501
- Pour Point °C -ASTM D97, IP 15 / ISO 3016
- Total Sulphur - ASTM D 4294 / ISO 8754
- Total Sediments Thermal - ASTM D4870/ ISO 10307
- Water Content % Vol - ASTM D 95/ ISO 3733
- Flashpoint - ISO 2719, ASTM D 93
- Hydrogen Sulphide - IP570
- Total Sediments aged - ISO 10307
- Vanadium - IP501
- Sodium - IP501
- Aluminum - IP501
- Silicon - IP501
- Calcium - IP501
- Sodium - IP501
- Zinc - IP501
- Phosphorus - IP501
- Viscosity - ASTM D445
- Sediment by hot Filtration - IP375

About Us:

TUV India Pvt. Ltd. (TUV NORD GROUP) is a customer-focused, innovative, and independent, technical, quality & safety services organization, dedicated to providing future-proof solutions through technological excellence for the success of its customers with the highest level of integrity. With a presence at over 40 strategic locations in India; a branch office in Sri Lanka; state-of-the-art laboratories at Pune, Bangalore & Jamnagar; 100 important countries worldwide and through digital means, we are always connected to you, our esteemed customer, anywhere, anytime.

We are proud to provide increasing levels of services to the best known, largest global and national companies as well as medium and small industries in diverse sectors like Oil & Gas, Petrochemical, Nuclear, Renewables, Infrastructure, Food, Power, Manufacturing, Chemicals, Pharma, Paper, Automobiles, Railways, Aerospace, Defence, IT, Health, Hospitality, Retail, etc.

Over 1200 competent and experienced TUV India experts spread across India and over 14000 TUV NORD experts all over the world, enthusiastically support our clients by providing value-added services in Industry Inspection, European / International Approvals, Management System & IT Certification, Sustainability, Energy audit, Water audit, Carbon Services, Building Infrastructure & PMC, Renewable Energy, Food & Packaging Testing, Food Certification & Inspection; Product Testing – Electricals, Electronics and Industrial Machinery; Product Certification; Petroleum, Chemicals & Gas Cargo Inspection; Petroleum, Chemicals & Gas Testing; Railway Technology; Engineering, Safety Studies, and knowledge enhancing training programs under TUV India Training Academy.

Registered & Head Office Contact :

TUV India Private Limited

Address: 801, Raheja Plaza-I, LBS Marg, Ghatkopar (W), Mumbai - 400086

TUV India NABL Certified Petroleum, Chemical & Gas Testing Laboratory

Jamnagar Laboratory Address:

M.P. Shah Udyog Nagar, Plot No. A/12/2/2 83, Saru Section Road, Jamnagar- 361002, India

Petroleum, Chemical & Gas Testing Laboratory presence at other locations:

- Hazira
- Kandla
- Mumbai

Phone: +9122-66477000

Toll Free Number: 1800-209-0902

Email: pcgindia@tuv-nord.com
