

Food Packaging & Food Contact Materials Testing

Food packaging is one of the most important attributes for ensuring quality of food apart from its processing. Food packaging is very crucial in the sale of foods as they ensure that the quality and freshness of food is kept intact until it reaches the end user. A wide range of materials are used for packaging of food, from glass containers to latest flexible plastic containers. The safety of these containers is of interest to all consumers as these come in direct contact with the food.

TUV India offers our customers with food packaging testing as per international and national regulatory requirements (EU, US FDA, FSSAI, BIS, etc.).

Latest high end equipment's and internationally approved methods are used for analysis. We do testing as per global and Indian standards. Apart from testing services we also offer consultancy services to our clients who need guidance with regard to food packaging testing needs.

The guidelines commonly followed for food contact material testing are:

- Overall migration testing as per EC 1186 & Specific Migration testing as per EC 13130 according to the test conditions specified in Commission Regulation (EU) No 10/2011 on plastic materials and articles intended to come into contact with food
- EC 1935/2004 on materials and articles intended to come into contact with food
- Council of Europe Resolution CM/Res (2013)9 on metals and alloys used in food contact materials and articles
- FDA 21 CFR 175 to 178.
- Overall/Global Migration Test as per IS 9845
- IS 9833 List of Colorants for use in plastics in contact with foodstuff and pharmaceuticals
- LFGB (German Regulations for Food packaging) and many more

About Us:

TUV India Pvt. Ltd. (TUV NORD GROUP) is a customer-focused, innovative, and independent, technical, quality & safety services organization, dedicated to providing future-proof solutions through technological excellence for the success of its customers with the highest level of integrity. With a presence at over 40 strategic locations in India; a branch office in Sri Lanka; state-of-the-art laboratories at Pune, Bangalore & Jamnagar; 100 important countries worldwide and through digital means, we are always connected to you, our esteemed customer, anywhere, anytime.
