ISO 27701 – Privacy Information Management System Certification

Overview

ISO/IEC 27701 is a privacy extension to ISO/IEC 27001 Information Security Management and ISO/IEC 27002 Security Controls. An international management system standard, it provides guidance on the protection of privacy, including how organizations should manage personal information, and assists in demonstrating compliance with privacy regulations around the world.

ISO 27701 is a Privacy Information Management System (PIMS) standard that helps organizations comply with personal data privacy laws around the world. In recent years, new data protection laws have been introduced in multiple countries that establish requirements for securing and processing Personally Identifiable Information (PII). However, it is not always clear how organizations should comply with these laws. The standard was introduced in 2019 and provides actionable guidance to help organizations conform to these regulations.

ISO/IEC 27701:2019 is an extension of ISO/IEC 27001, the information security management system (ISMS) standard. Where ISO/IEC 27001 sets a standard for secure IT governance in the broadest sense, ISO/IEC 27701 focuses specifically on protecting personal data.

ISO/IEC 27701 is the first standard of its type and applies to public and private companies, government entities, and not-for-profit organizations. It supports compliance with the EU's GDPR and applies to personal data privacy governance laws in all other countries.

Benefits

- Compliance with all relevant data protection laws and clarification of the roles and responsibilities of PII controllers and processors
- Gain a competitive edge – certification demonstrates strong IT governance and increases stakeholder trust in your privacy and data protection practices
- Achieve world-class standards – a rigorous risk and compliance-driven approach meets the requirements of global data governance laws
- Improve transparency – measure and report data privacy improvements using detailed security and privacy controls
- Minimize PII-related risk by keeping track of evolving privacy threats and the regulatory landscape.
- Support business relationships with your customers and suppliers by demonstrating you meet PII protection standards worldwide

Why choose TUV India?

- Approved for various national and international accreditations for provision of Certification services
- Wide pool of highly qualified and experienced Auditors and Tutors across India
- Comprehensive and diverse range of value-added

services

- Key account management
- One-stop solution for your certification requirements

Route to Certification:

- Offer from TUV India based on the information provided
- Order for certification
- Stage 1 Audit: Assessment of readiness for certification
- Audit Planning
- Stage 2 Audit: Certification Audit
- Nonconformity management (where required)
- Release by the certification body
- Issue of the certificate and annual surveillance audits

Certification to ISO/IEC 27701 is linked with the ISO/IEC 27001 certification. Implementation of ISO/IEC 27001 is a requirement for ISO/IEC 27701 certification.

About Us:

TUV India Pvt. Ltd. (TÜV NORD GROUP) is a customer-focused, innovative, and independent, technical, quality & safety services organization, dedicated to providing future-proof solutions through technological excellence for the success of its customers with the highest level of integrity. With a presence at over 40 strategic locations in India; a branch office in Sri Lanka and Bangladesh; state-of-the-art laboratories at

Pune, Bengaluru, Noida and Jamnagar; 100 important countries worldwide and through digital means, we are always connected to you, our esteemed customer, anywhere, anytime.

We are proud to provide increasing levels of services to the best known, largest global and national companies as well as medium and small industries in diverse sectors like Oil & Gas, Petro-chemical, Nuclear, Renewables, Infrastructure, Food, Power, Manufacturing, Chemicals, Pharma, Paper, Automobiles, Railways, Aerospace, Defence, IT, Health, Hospitality, Retail, etc.
