

Mango: Quality Assurance & Pesticide Residue Monitoring

TUV India Food Testing Service:

As India's premier testing laboratory with expertise in testing for exports of fresh fruits & vegetables, we extend our services and experience even for the King of Fruits – Mango!

With the advent of the mango season, we once again reach out to each of you to help and assist you with your quality & safety assurance program which could include the following:

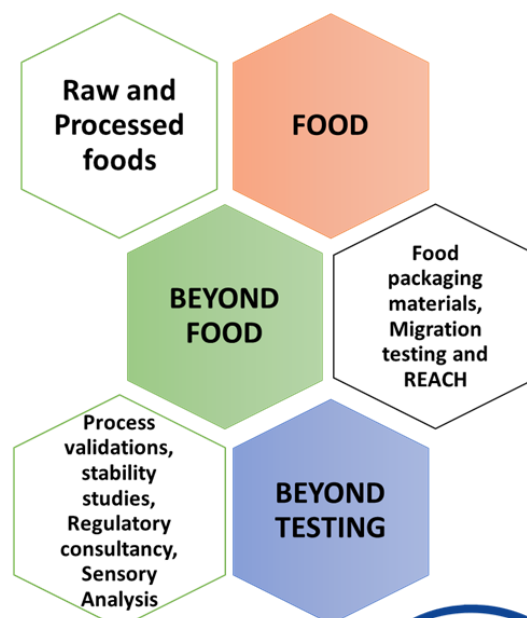

- Pre Harvest Sampling direct from the Farm
- Composite Sampling from the Pack house
- Pesticide Residue Monitoring
- Compliance testing as per USA, EU & FSSAI guidelines
- Packaging Compliance Testing

Our services extend across various products as well as industries:

Products	Industries
Raw Mango	Mango Cultivators
Processed Mango Products	Mango Exporters
Mango Pulp	Pulping/Processing Units
Frozen Mango Cuts	Modern Retail Units

TUV India has two state-of-the-art testing laboratories in Pune (Center of Excellence) and Bengaluru offering a wide spectrum of comprehensive high-end analytical and consultancy services in the fields of raw material, processed foods, food packaging, home and personal care, pharmaceuticals and materials testing along with process validation, stability studies, sensory analysis, label verifications and regulatory consultancy services.

TUV India offers services in a wide range of fields:

TUV India can perform FSSAI conformance tests, pesticide residue and toxic metals analysis, naturally occurring toxins, physical, chemical and nutritional analysis, microbial analysis (Alicyclobacillus, Thermophilic Acidophilic Bacteria etc.), sugar profiling, shelf life studies, packaging material testing using internationally recognized methods of AJIN (European Fruit Juice Association), IFU (International Fruit and Vegetable Juice Association), AOAC, ISO, BAM and other well-known methods.
