6 <sup>th</sup> . Sept Wed		Exams GC1 – 24 hrs from 10am.	Tapton Centre	

### Break Times: 10:15 – 10:30, 12:30 – 13:00, 15:00 – 15:15

Please note that the course will be delivered in the above order although the modules do not, in all cases, fit the hours in each day. This may lead to occasional overlap of the dates shown.

Candidates will be given written assignments for completion outside of tutorial times to assist with self-study requirements.

The NG1 exam is executed by completion of an open book type exam. 24 hours are allowed for the delegate to demonstrate how the theoretical principles from the course are applied practically to a work-based scenario. The NG 2 part of the course is judged by the standard of a risk assessment type project, requiring the need for a written report.
