

Wine Testing

Wine, one of the most ancient fermented beverages humankind has known are un-distilled alcoholic beverages made from grapes or other fruits such as peaches, plums or apricots, banana etc. As a fruit based fermented and un-distilled product, wine often retains most of the nutrients present in the original fruit juice.

A typical wine contains ethyl alcohol, sugar, acids, higher alcohols, tannins, aldehydes, esters, amino acids, minerals, vitamins, anthocyanins, minor constituents like flavoring substances. The most famous types of wines are red and white wines, followed by rosé and sparkling wines. There are other wine specialties around the world.

At TUV India food laboratory, with a robust sampling team of trained samplers who carry out pan India sampling using approved standard operating procedures ensure samples are in prime condition prior to testing. Our laboratory covers testing of wines as required by FSSAI standards. Apart from this, testing is performed as per customer quality requirements. Our highly skilled and experienced analysts perform testing using internationally approved methods on high end equipments.

FSSAI under the FSS (Alcoholic Beverages) regulations, has classified various wines and defined testing parameters for quality and safety compliance for wines sold in Indian market. FSSAI requires that wines are analyzed for their quality attributes, alongside safety testing including heavy metals, toxins and naturally occurring toxins as applicable to wine.

TUV India is also involved in a large professionally acclaimed sampling and testing program for fresh grapes carried out annually, which gives us the market advantage of supporting your raw material testing requirements alongside finished product testing.

TÜV NORD GROUP
Expertise for your Success

About Us:

TUV India Pvt. Ltd. (TUV NORD GROUP) is a customer-focused, innovative, and independent, technical, quality & safety services organization, dedicated to providing future-proof solutions through technological excellence for the success of its customers with the highest level of integrity. With a presence at over 40 strategic locations in India; a branch office in Sri Lanka; state-of-the-art laboratories at Pune, Bangalore & Jamnagar; 100 important countries worldwide and through digital means, we are always connected to you, our esteemed customer, anywhere, anytime.

We are proud to provide increasing levels of services to the best known, largest global and national companies as well as medium and small industries in diverse sectors like Oil & Gas, Petrochemical, Nuclear, Renewables, Infrastructure, Food, Power, Manufacturing, Chemicals, Pharma, Paper, Automobiles, Railways, Aerospace, Defence, IT, Health, Hospitality, Retail, etc.
